(54) IMAGE FORMING DEVICE

(57)Abstract:

PROBLEM TO BE SOLVED: To accurately detect the size of various tabbed paper.

SOLUTION: The size of the paper (normal paper) arranged in a paper feed tray not established as a tab tray by a tab tray setting means C is specified when the length in the feeding direction of the paper and the length in the direction (width direction) perpendicular to the feeding direction are detected by a normal paper size detecting means D. The size of the paper (tabbed paper) arranged in a paper feed tray established as a tab tray by the tab tray setting means C is specified when only the length in the width direction of the paper is detected by a tabbed paper size detecting means E. When the size of the paper cannot be specified, the size is determined as the size set in advance.

LEGAL STATUS

[Date of request for examination] 11.05.2001

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number] 3435264

[Date of registration] 30.05.2003

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
